# **ZOOMLION TECHNOLOGY WITH INGENUITY AND CARE**

# The world's leading excavator intelligent manufacturing factory

Zoomlion Smart City Earthmoving Machinery Park is an industry-leading intelligent and flexible excavator factory. From a piece of steel plate to an excavator, with high-precision welding process, highly reliable assembly process, high-level coating process and strict quality control, each excavator is delivered with ultimate quality.

# ZOOMLION 1.2 Ton SERIES COMPACT TRACK LOADER

**ZT120V** 

# **OUTSTANDING PERFORMANCE**

# **WELL-KNOWN BRAND ENGINE**

- High-pressure common-rail system and diesel particulate filter (DPF).
- The high-pressure common-rail system electronically controls the timing and amount of fuel injected to ensure full combustion, improving fuel efficiency, and reducing engine noise.
- Equipped with exhaust gas recirculation technology and a DPF, the ZT090V meets the U.S. EPA Tier 4 Final and EU Stage V emission standards.
- Powerful and reliable 53.4 kW engine gets the job done with ease.

# AUTOMATIC RESETTING FOOT-OPERATED THROTTLE

 The foot-operated throttle can be used to increase engine speed when strong power is needed transitorily.

# **10-GEAR KNOB FIXED THROTTLE**

 Constant engine speed can be maintained during operations such as cold milling, trenching, sweeping, snow removal, and drilling.

With Two-speed system, the ZT120V's, which makes the vehicle more agile and brings higher efficiency.

Max.speed reached

14 Km/h

Faster than

competitors by 30 %

With a large ground clearance and a small ground specific pressure, the ZT120V easily crosses large obstacles, allowing it to drive on more rugged surfaces and work in more complex environments.

GHEHI-GESTA

TWO SPEED

# **MULTIPLE ATTACHMENTS**

International standard quick coupler interface, compatible to attachments from different manufacturers

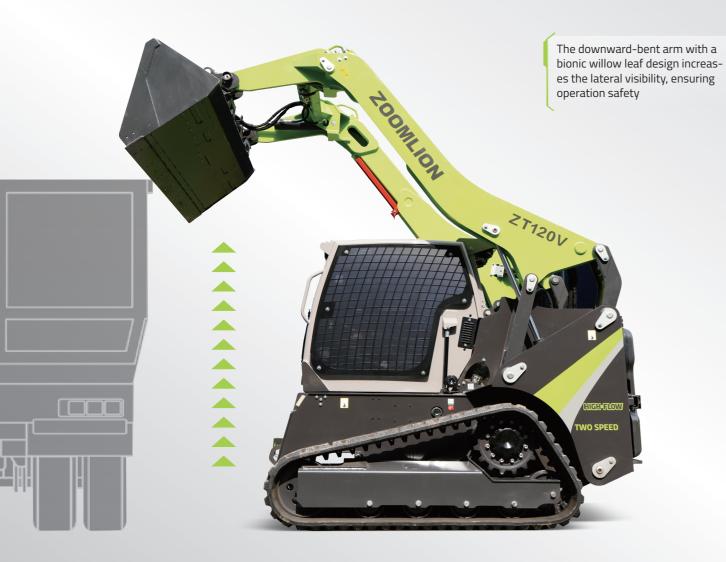

- Sweeper
- Sweeper (with Side Brush)
- Angle broom
- Six-way bulldozer
- Snow blower (low throw)
- Industrial grab bucket

- Concrete mixing bucket
- Scraper
- Snow pusher
- Rotary tillerTrencher
- Mower

- Auger
- Haystack handling fork
- 4-in-1 bucket
- Gardening grab bucket
- Hydraulic breaker
- Pallet fork

# **UNIQUE VERTICAL LIFT ARM**

Unlike the circular arc lift, the unique linkage structure of vertical lift technology makes the lifting trajectory of the front end of the working arm to be approximately vertical, which reduces the frequent forward and backward movement of the machine, and allows unloading to be completed in-situ, which gives a greater advantage to loading and unloading of materials in narrow indoor spaces, such as warehouses and in-building constructions.

Maximum dump reach **980** mm.

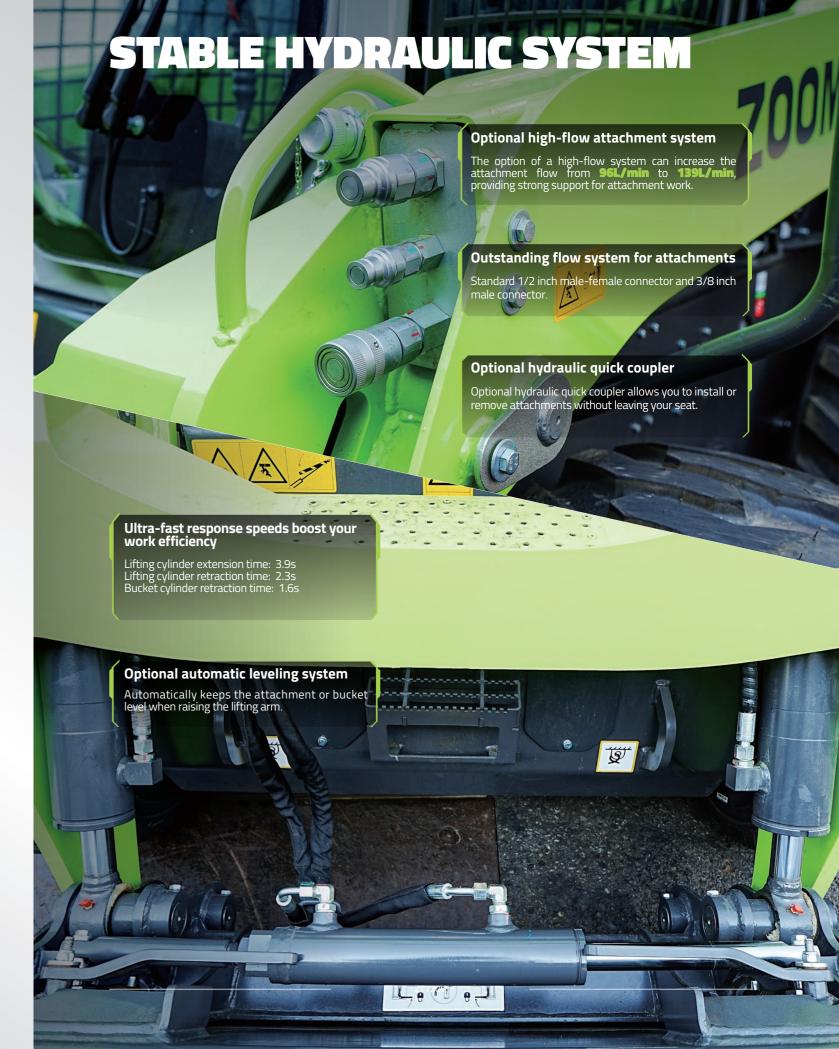

Maximum bucket breakout force: **25.9**kN

Maximum dump height **2510** mm.

Maximum arm breakout force: **23.1**kN

TThe maximum height dump angle of **42** ° results in faster unloading.

The track ground length of **1556**mm makes the working process more stable.

# EXCELLENTSAFETY

Outstanding 360° visibility

The bucket can be seen from the seat, improving safety during work processes

Optional suspension seat.

A better suspended seat keeps you in good working condition.

## Pressurized cab.

The pressurized cab effectively isolates dust, debris and insects, minimizing noise

## Optional air conditioner.

Provides excellent cooling and heating performance.

# Optional cup holder

The cup holder under the right armrest is convenient for placing a water cup to quench thirst while working.

## Ample legroom

The spacious cab provides ample legroom, which helps to alleviate fatigue.

### Standard multi-function instrument. 120W Power Output.

Key information such as fuel level, hour meter, voltage faults, and fault alarms can be displayed through the instrument

With a maximum power output of 120 W, it can charge mobile phones and power other small electronic devices.

# Reading Lamp.

A standard reading lamp makes it easy to view and read inside the cab.

## FOPS/ROPS cab

A cab certified for FOPS/ROPS provides protection in the event of unforeseen rollovers and falling objects.

## Optional cab side guard

TThe optional cab side guard protects your lateral safety.

# Optional reversing video camera

The optional reversing video camera features the large display at the front of the cab and the high-definition camera at the rear, ensuring a complete view of the ma-chine's rear door

## **Built-in hydraulic lines**

Hydraulic lines are located inside the lift arm for perfect protection of the hydraulic lines.

## Optional turn signals and exterior rearview mirrors

Optional turn signals and exterior rearview mirrors do not move with the lift arm, making it easy to observe the situation at the back of the body at any time, ensuring operation safety.

# Optional license plate holder

Optional license plate holder and plate lamp make it easy to identify your vehicle.

ZT120V

# **EASE OF MAINTENANCE**

- A Engine oil filler
- B Engine oil dipstick
- C Battery
- D Engine oil filter
- E Air filter
- F Coolant tank
- G Fuel-water separator
- H Fuel filter
- I fuel filler
- J Oil Return Filter

Long service intervals reduce frequent maintenance, allowing oil changes every 500 hours.

Opening the rear door and the upper cover grants access to all components for daily inspections.

The tailgate is made of 6mm high-strength steel plate, which can resist splashing stones and metal collisions, protecting the engine and pipelines.

# Top-mounted independent cooling system

Lifting the cab and radiator provides access to the engine compartment, making it easier to inspect and maintain the power, hydraulic, and electrical systems.

# The radiator can be flipped upwards 30°

The radiator components are located at the top of the engine compartment, which prevents damage from the rear and facilitates daily cleaning and maintenance.

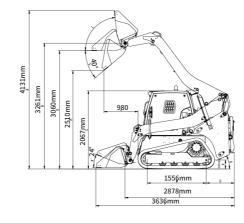

# **LIST OF OPTIONS**

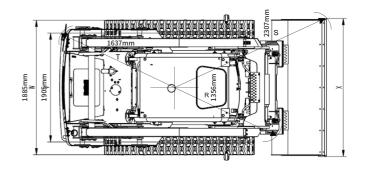

System	Configuration		ZT120
	Engine		●Kubota (53.4kW/2400rpm)
	Engine emissio	ns	EU V/T4F
Dynamical system	Air cleaner		•
	Cyclone air pre filter		0
	Cylinder intake preheater		•
	Walking pump		•
Hydraulic system	Traveling motor		•
	High traffic system		•
	Automatic leveling of bucket		0
	Hydraulic quick change		0
	Dual speed walking		•
